Dennis,

Regarding your call with Dick this Thursday, I am not necessarily suggesting that any of the topics below are items you would want to bring up. Nonetheless, they feel like some of the hotter issues that might be brought up by Dick during the call.

Oregon CZARA – Pending decision on Coastal Nonpoint Program - EPA and NOAA understand the gravity of the situation. We are working through the issues very carefully. We will make our decision in January 2015 as required by a settlement agreement.
